

Climate Smart Gladstone Business Cluster Program

A guiding hand for business to reduce their carbon footprint

The Gladstone Climate Smart Business Cluster Program is partially funded by the Queensland Government (Climate Smart Business Grant) designed specifically to enable you business to gain a competitive edge by improving profitability; moving beyond environmental efficiency standards, with a goal of generating new business opportunities. The program guides you through a review of the environmental aspects of your business in the development of a plan for action that embeds sustainability into strategies and policies, in addition to the provision of methods to monitor and measure successful outcomes.

Easy 5 Step Process - Climate Smart Business Program Schedule:

- Step 1:** Introduction Session and sign up to the program. March 2010
- Step 2:** Site Visit/Survey and Baseline Assessment of your business (1x per business) April to May 2010
- Step 3:** Progress/Implementation Workshops. April to August 2010
- Step 4:** Provision of tools to measure, benchmark and evaluate
- Step 5:** Program reflection and future-planning session. August 2010

FREE Introductory Climate Smart Business presentation:

Please join us for an introductory presentation of the Gladstone Climate Smart Business Cluster Program where you'll not only learn more about the program, but also gain immediate skills and knowledge that will assist in navigating your way through the 'green maze' of implementing energy, water and resource efficiency in your business.
